DISTRICT 1130

PolioPlus

A programme of The Rotary Foundation that Supports global polio eradication efforts in Polio endemic countries by conducting National Immunisation Days, monitoring poliovirus Transmission and other activities

December 2005

POLIO NEWS IN BRIEF

The question is, why do we continue to work towards eradicating polio? The answer is simple, because we can eradicate Polio and it's Rotary's gift to the children. It's because you and I take Service Above Self seriously enough so as to build goodwill and better friendships.

It is so easy for you to make a life-changing event of magnificent proportion in young lives when those lives are those of young children.

Your contributions to The Rotary Foundation are what make Foundation's programmes work. PolioPlus saves lives and removes fear of a lifetime of adversity for millions of children. PolioPlus is about saving children. It is about the babies whose names we will never know but whose lives were protected and improved. It is about the two billion children saved from iron lungs and early deaths or lifetimes in leg braces.

Your contributions have a true vision of a polio-free world together with the satisfaction of leaving something that will assist in carrying on of the ideals of us Rotarians in perpetuity.

Have you and your Club been generous this year in your Foundation contributions?

Just remember that there are mothers, fathers, sisters, and brothers saying in 100 languages just what Past RI President Jim Bomar heard when he immunised that first child: "Thank you"! "Thank you"! "Thank you Rotary"!

The greatest good must necessarily come from the combined effort of us Rotarians. Our combined effort should be dedicated to the service of mankind. The power of combined effort knows no limitations.

Be generous with your contributions and help Foundation in its quest of making a polio-free world.
